ABOUT ME

A passionate and detail-oriented software engineer with two years of hands-on experience in building scalable web applications and custom enterprise resource management system, including Personal Information System and ERP solutions. Proficient in full-stack development with React, Next.js, TypeScript, Laravel and Node.js(Express.js, NestJS). Enthusiastic about emerging technologies and actively exploring Al-powered application development using Flask and Node.js. Strong understanding of software development best practices, database management, and delivering user-centric solutions in dynamic environments.

EDUCATION

UNIVERSITY OF COMPUTER STUDIES YANGON

Bachelor of Computer Science 2020 - 2021

NCC EDUCATION

Level 4 Diploma in Computing 2023 - 2024

Level 5 Diploma in Computing 2024 - 2025

SKILL

BACKEND

Node.js (Express, NestJS), PHP (Laravel), Python (Flask), C#, REST API, GraphQL, Jest, Socket.io

FRONTEND

React, Next.js, JavaScript, TypeScript, React Query, Tailwind, Bootstrap, JQuery

DATABASE

MySQL, MongoDB, PostgreSQL

TOOLS

Git, Docker, Linux, Postman, Vite, Axios, Xampp

WORK EXPERIENCE

SOFTWARE ENGINEER

2024-NOW

Findix Myanmar Co., Ltd - Yangon, Myanmar

- Developed and maintained a custom ERP-like resource management system and its functional sub-modules, streamlining internal operations for HR, inventory, and workflow processes.
- Played a key role in the design and development of an Al chatbot system, integrating React, Node.js, and Flask to create a responsive and intelligent conversational interface.
- Built and enhanced both backend and frontend components using a diverse tech stack, ensuring system scalability, maintainability and performance.
- Contributed to full-stack development efforts with a focus on Laravel and Express for API and business logic, and React, Tailwind and Bootstrap for interactive UI development.
- Performed software testing and debugging, and worked collaboratively in an Agile environment with regular code reviews and sprint planning.

Technologies and Tools - Laravel, jQuery, Bootstrap, MySQL, React.js, Node.js (Express.js), Tailwind CSS, MongoDB, Python, Flask, Git, Postman, Docker, Next.js, NestJS, Socket.io, RESTful API

HIGH SCHOOL SCIENCE TEACHER

2020-2024

Freelance

- Taught high school students in Physics and Chemistry, helping students improve exam performance and deepen understanding of scientific concepts.
- Designed engaging lesson plans, breaking down complex theories into simple, practical examples.
- Built strong communication and mentoring skills while managing diverse student needs.

LANGUAGES

Myanmar (Native)

English (Fluent)

HOBBIES

Teaching Science to High School students

Learning new technologies

Goal Keeping and defending in football

Making memes

Cooking

Writing Burmese poems

Singing

Playing drum

Watching movies and dramas

PROJECTS

TRITIUM LEARNING PLATFORM Online learning platform

GitHub Live Demo

- Built a role-based learning management platform with Admin, Super Admin, and User roles.
- Implemented course management where admins can create courses and upload video lessons.
- Implemented super-admin feature to manage the whole platform
- Designed secure authentication and authorization using JWT and role-based access control.
- Delivered responsive frontend with React + Tailwind and optimized backend APIs with Express & MongoDB.
- Implemented Socket.io for real time communication between client and server

SEARCH POKÉMON

GitHub Live Demo

Gaming and knowledge

- Developed a searchable Pokémon database using Next.js server-side rendering for fast performance.
- Integrated PokéAPI to fetch and display real-time Pokémon data including stats and images.
- Built a responsive UI with TypeScript + Tailwind for seamless experience across devices.
- Implemented search and filter functionality to enhance usability.

SEARCH POKÉMON Gaming and knowledge

GitHub

odiffing and knowledge

- Developed an eCommerce web application with Laravel, MySQL, HTML, Bootstrap and jQuery.
- Developed both user side and admin side for creating order, payment, order confirmation, product creation, product delivery and overall system management
